

UNITED STATES OF AMERICA  
FEDERAL ENERGY REGULATORY COMMISSION

Juneau Hydropower, Inc.

Project No. 13563-002

ERRATA NOTICE

(April 23, 2013)

On April 11, 2013, the Commission issued an “Order Issuing Preliminary Permit and Granting Priority to File License Application” for the Sweetheart Lake Hydroelectric Project.

In the above referenced order, Alaska Electric Light and Power Company was inadvertently left off the list of intervenors for the preliminary permit application. The sentence should now read, “A timely motion to intervene was filed by the U.S. Forest Service (Forest Service) and Alaska Electric Light and Power Company.”

Jennifer Hill, Chief  
West Branch  
Division of Hydropower Licensing
