RE: Supplemental Information Statement- Sweetheart Lake Hydroelectric Project (P-13563) Boundary Acreage.

Dear Ms. Bose,

Juneau Hydropower Incorporated has been requested by FERC staff to identify the amount of acreage of the project identified in the Sweetheart Lake Hydroelectric Project. We are providing this information as a supplemental information statement. The acreage for the project boundary is 25,108 acres which includes the protection of the project lake watershed, its water resources, project infrastructure and includes both proposed submarine and overhead transmission line options. The project boundary acreage is entirely owned by the US Federal Government and the non marine portion of the project boundary is managed by the US Forest Service under the Tongass National Forest.
